

CabFlex

Time for a Cabin System Upgrade?

If you are getting ready to upgrade your cabin, ask your mod-center about the CabFlex™ System from Intheairnet. CabFlex™ is an affordable cabin system upgrade.

- Flexible – Perfect for any size aircraft cabin. Can perform all of your current cabin system functions ...and more!
- Lower Cost of Ownership – Less LRUs and mechanical switches means lower maintenance, less down-time and lower cost of ownership.
- Three-year warranty.
- Scalable – The CabFlex™ System allows for additional sources or changing the interface and functionality at seat locations.
- Affordable – the powerful CabFlex™ system is lower-cost yet has more features than competitive systems.
- Turnkey – The system includes DVD, VCR, Moving Map and full cabin control of lighting, audio-video and galley functions.
- Quick Installation – CabFlex™ is designed to be installed with minimal downtime for your aircraft.

Call your dealer today for a quote on upgrading your cabin system to CabFlex™ or call us to find a dealer near you!

An affordable solution with more quality, more options, and more design elegance
