

## Rogerson Aircraft Equipment Group

### EXISTING TOILET CONFIGURATION

- Rogerson Aircraft Systems was the pioneer vacuum lavatory system supplier
- Rogerson Aircraft Systems has millions of reliable flight hours on their equipment
- Rogerson Aircraft Systems vacuum lavatory equipment has design commonality with its competitors

### NEXT GENERATION TOILET CONFIGURATION

- Revolutionary Design Concept
  - Upgraded designs for both rinse valve and flush valve
  - Common power source for both rinse and flush valve
  - Utilization of composite materials
- Lighter Weight (Goal 10Lbs.)
- Noise levels Reduced
- Cost Effective
