

Rogerson Aircraft Systems

ABOUT

Rogerson Aircraft Systems developed the first successful aircraft vacuum toilet. We have over 10 million flight hours of experience, and are the most experienced supplier of aircraft vacuum toilets in the world. We continue to be the preferred supplier for spares and repairs of B767, A300, A310, A330, and A340 lavatory systems.

At Rogerson our goal is to provide the Airlines with a low cost and affordable solution for vacuum lavatory spares and repairs. Our ability to have stock on virtually every major vacuum lavatory LRU is key to our worldwide product support. All Components are tagged with an 8130-3 and are FAA/PMA certified. Our repair facilities have the experience necessary to achieve quality workmanship at a reasonable price. Rogerson can offer a total support package that will reduce your cost of ownership and provide you with costs savings immediately.

Today, Rogerson is again looking forward and providing the airline community with a new solution to an age-old airline maintenance problem - commonality. The Systems Division will introduced the next generation™ toilet assembly module to fit nearly every aircraft flying today.

Toilet Assembly

Drain Valve

MAIN SYSTEM COMPONENTS

Vacuum Generator

Waste Tank

Dump Valve

Logic Controller

A300/A310/A330/A340 LRU's

A300/A310

PART NUMBER

■ 70100-1/-3.....	Waste Tank Assembly
■ 70200-1/-2/-101/-102.....	Toilet Assembly
70400-1/-3.....	Logic Control Unit
■ 70500-1.....	Pressure Switch
■ 70600-1/-2.....	Drain Valve
■ 70700-1.....	Vacuum Blower
70800-1/-3.....	Toilet Shut-Off Valve
■ 70900-1 (S/S).....	Liquid Level Sensor (LLS)
■ J540AI73.....	Liquid Level Sensor (LLS)

DESCRIPTION

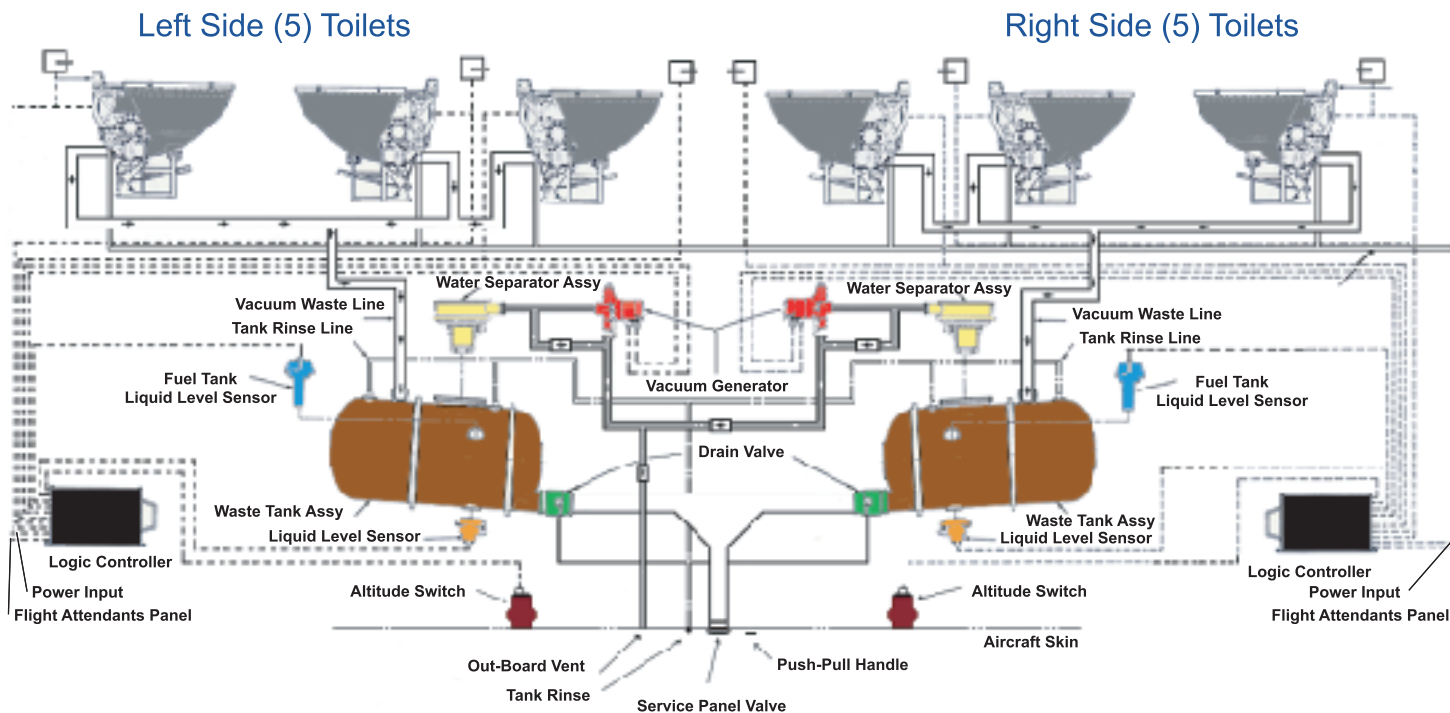

A330/A340

PART NUMBER

■ J540AI1/2-300 (S/S).....	Toilet Assembly
■ J540AI1/2-400.....	Toilet Assembly
86600-103.....	Flush Valve Assembly
86500-109 (S/S).....	Rinse Valve Assembly
86500-111.....	Rinse Valve Assembly
J540AI9-100.....	Air Shut-Off Valve
■ J540AI51.....	Drain Valve
J540AI6.....	Check Valve
■ J540AI73.....	Liquid Level Sensor (LLS)

DESCRIPTION

TYPICAL WIDE-BODY SYSTEM
